

The Ares Air is our most advanced helmet for work at heights with features and specifications specifically developed for the most technical professionals. The robust shell is made of a blend of ABS and polycarbonate with wide ventilation openings on the sides that can be closed with a simple slideclosure system. The energy absorbing internal shell is made of highdensity EPS foam. The webbing suspension system adapts to the shape of the head for a uniform and comfortable fit. The vertical position of the polyamide headband is adjustable both in the front and back. Turn dial adjustment is easy to operate with one hand and ensures a secure and precise fit. Adapter kit for small heads is included. The helmet comes standard with sweat-absorbing padding on the suspension system. Water-repellent foam replacement padding is also included in the packaging. Full strength chin strap (> 50 kg) prevents incidental or accidental release. Equipped with attachment points for ear protection, visor and headlamp. No metal is used in the construction in order to prevent problems with corrosion or conductivity. Available in 7 colors and further customizable with 9 versions of colored stickers. Equipped with NFC TRACK tag for digital identification.

One size fits all.

Standards:

- EN 12492, that also includes requirements for use at very low temperature (-20°C);
- EN 397 performance requirements for energy absorption and resistance to penetration.

- 9 Equipped with attachment points for ear protection, visor and headlamp.
- 10 CE marking and serial number label.
- 11 Label for personal identification (user name, company name etc.).
- 12 Fluo yellow / Reflective grey helmet version is supplied with reflective stickers for high visibility. Reflective stickers are supplied also separately as spare part (ref.074509).
- 13 Equipped with NFC TRACK tag for digital identification.

### PARTS INCLUDED IN THE PACKAGE

### Ares Visor

**0749** Clear  
**074901** Shaded  
 Compatible with all Ares series helmets.  
 (Supplied separately).

**074501**  
Replacement turn dial  
adjustment kit for all Ares series  
helmets.

**074503**  
Replacement headlamp holder  
clips for all Ares series helmets  
(4 pcs).

**074504**  
Caps for visor and ear protection  
slots for all Ares series helmets  
(2+2 pcs).

**074505**  
Adapter kit for reducing the size  
for all Ares series helmets  
(except Ares MIPS).

**074506**  
Replacement mesh padding kit  
for all Ares series helmets  
(except Ares MIPS).

**074507**  
Replacement foam padding kit  
for all Ares series helmets  
(except Ares MIPS).

**074508**  
Replacement chin strap kit for  
Ares Air, Ares Air Plus.

**2067**  
Replacement chin strap padding  
(5 pcs).

C.A.M.P. presents in this catalog a **complete solution for the digital management of PPE**, both for allocation to users and for periodic inspections: the **NFC TRACK hardware tags on the products** work seamlessly with the **G.T.S. - Gear Tracking System software** to make the system very intuitive and easy to use.

**NFC TRACK chips are installed on many C.A.M.P. products** (harnesses, helmets, Retexo lanyards). They **can also be attached directly on any PPE** by the user, so that the user can assign the PPE data to the chip by means of the C.A.M.P. G.T.S.

**NFC (Near Field Communication) technology** is now present on most smartphones and used every day for smart payments. Today, it also represents the future for the individual identification of products.

The **HF RFID (High Frequency Radio Frequency Identification)** communication system on which NFC is based allows the C.A.M.P. NFC TRACK to be easily read using any latest generation smartphone or for professionals using a PC reader.

**NFC TRACK chip installed!**

## - G.T.S. - GEAR TRACKING SYSTEM

G.T.S. allows professionals to easily manage PPE both via the smartphone app (available on Play Store and Apple Store) and from a PC via the web app.

Two different packages allow for carrying out periodic inspections and also for managing the company allocation of PPE to its employees.

The database of **G.T.S. includes the technical information of all C.A.M.P. products** for work at height and a **large number of other products** posted by other users of the community with publicly available information.
